

# The #1 killer of teens doesn't come from a dealer.

IT'S PARKED OUTSIDE IN THE DRIVEWAY.

Far worse than drugs or alcohol, cars are the #1 killer of teens in America today.

A car not only gives teens a newfound freedom, it also poses an unseen danger; killing an average of 11 teen drivers every single day. It's time to stop this deadly habit once and for all.

The first step is to learn more about the STANDUP Act (S. 528, H.R. 1515) and how it can have a profound impact on saving teen lives.

#### WHAT IS THE STANDUP ACT?

The STANDUP Act creates minimum standards for Graduated Driver Licensing (GDL) laws, giving teens on-the-road driving experience gradually. States with strong GDL laws have reduced the number of fatal crashes among 16-year-old drivers by almost 40%.
