

Protecting the valuable possessions in your home is as easy as 1-2-3.

1. Complete this household inventory guide

Make sure you enter as much detail as possible including the purchase price and year of purchase. It also helps to take photos of expensive items.

2. Put the document in a safe place

File your completed household inventory in a safe deposit box or fireproof safe at home. That way you'll be able to access even if your home is damaged.

3. Update your inventory annually

Be sure to add new items and delete those belongings you no longer own. Then you can rest easy knowing your home inventory is up to date.
