Allstate is much more than just auto and home insurance. Through its range of innovative insurance and financial products, Allstate can help customers protect their lifestyle. On this page you will discover the variety of ways Allstate provides protection to customers.

NOTE: While it is helpful to be aware of the different products Allstate offers, you cannot discuss coverages with customers until you obtain binding authority and are appointed by Allstate to sell and service its insurance products. Until then, if a customer asks for details on a product, introduce the customer to one of the licensed and appointed sales professionals in your agency.
