

# Property & Casualty Actuarial Intern Program at Allstate

## Spend your summer with us.

As one of the nation's largest insurance companies, with 70,000 professionals working each day to help protect 17 million households, Allstate relies on the success of our recruiting and internship programs to find and develop career talent for the future.

Our summer intern program will provide you the opportunity to learn firsthand what it takes to be a Property & Casualty (P&C) actuary at Allstate.

## Real work in the real world.

As an actuarial intern, you'll experience the same theoretical training and development as our full-time actuarial analysts.

You'll also work on the same types of projects, including:

- Analyzing the adequacy of rates
- Implementing new rating plans
- Responding to state insurance department requests

You'll interact with other employees in various areas and levels of the organization. You'll also be assigned a mentor to help ensure that your work experience is positive and enjoyable.

GOOD WORK.  
GOOD LIFE.  
GOOD HANDS.

"The training program is crafted perfectly to bring you up to speed to understand the work you will immediately be doing, as well as the work of others around you, to show how an actuary's job fits into the big picture."

— Michael Robinson

"My favorite part about being an Allstate actuarial intern was being in the training unit, where the focus is on learning. You get both classroom and one-on-one instruction on the theories and principles of property and casualty insurance. You also do meaningful work with actuaries at all levels. The training unit is the ideal setting for an internship program."

—Jennifer Clark

## Interested? Let's talk.

As part of Allstate's company-wide internship program, the P&C actuarial intern program is able to offer great benefits, including:

- 12 weeks of work experience with one of the nation's largest property and casualty insurance companies
- Competitive compensation packages
- Pre-selected, subsidized housing
- Daily transportation to and from work, if needed
- Company-wide intern luncheons featuring company leaders as keynote speakers
- Intern camaraderie through group housing opportunities and extracurricular activities
- Consideration for full-time employment upon graduation
- Sign-on bonus incentive for interns who accept an offer of full-time employment upon completion of their degree

## All work and no play . . .

Of course, there's more to life than just work, so you'll get to know your fellow interns well. The P&C actuarial interns often lunch together and spend time with each other after work. As an intern, you'll also have the opportunity to participate in intramural sports, team outings, and department events. Past outings have included trips to the Taste of Chicago, Chicago Cubs baseball games and Navy Pier.
